

## What the Feature Does

- Allows any user to generate a unique 'deeplink' from a strategy profile in app.
- Lets users share the link across social media, messaging apps, and trading communities.
- Tracks new users who install the app via the link, connect their trading account, and copy the strategy.
- Rewards the referrer with **10% of the performance fee** generated by that copier.
- No cap on earnings — and with Pelican paying out **over \$1M each month** in performance fees, this introduces strong earning potential for users, IBs, and influencers.

Earn 10% in any performance fees generated for every account that starts copying this strategy using your referral link. There's no limit to how many friends you can refer or how much you can earn!

By clicking the button below, you agree to our [Refer Terms and Conditions](#).

Agree and Create Link

Discover

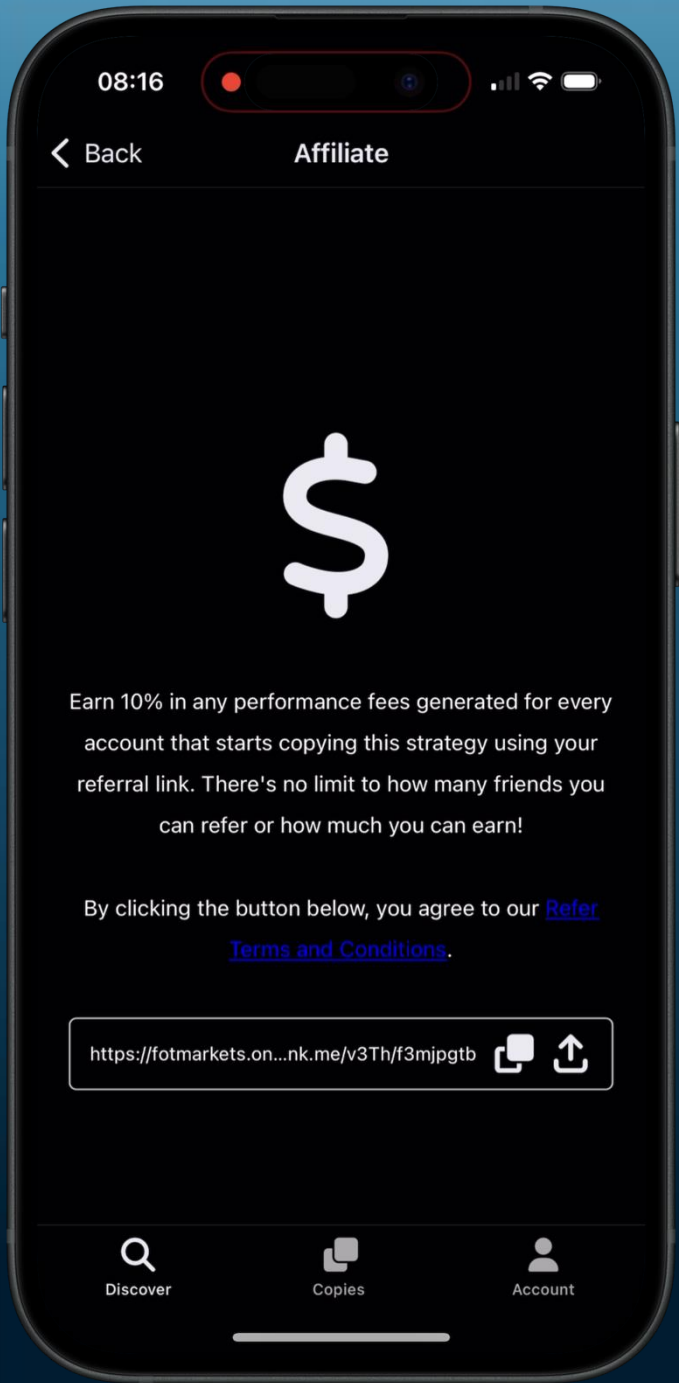

Copies

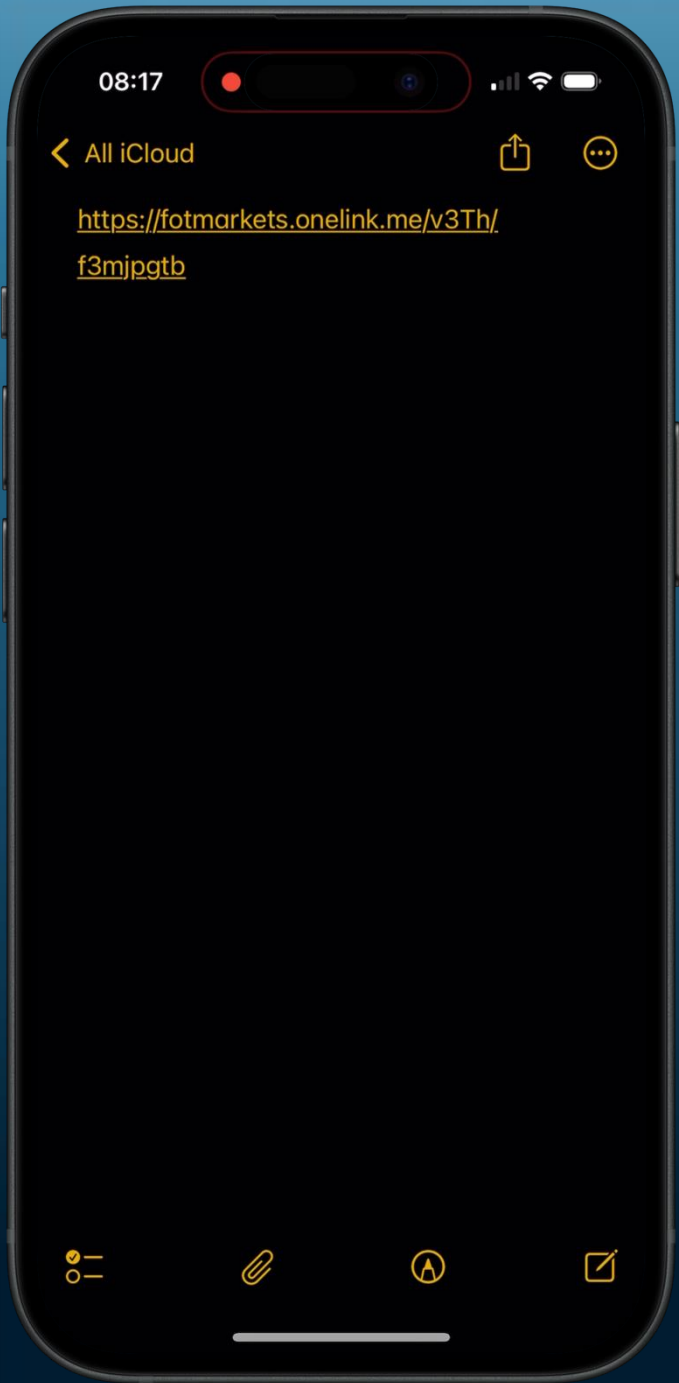

Account

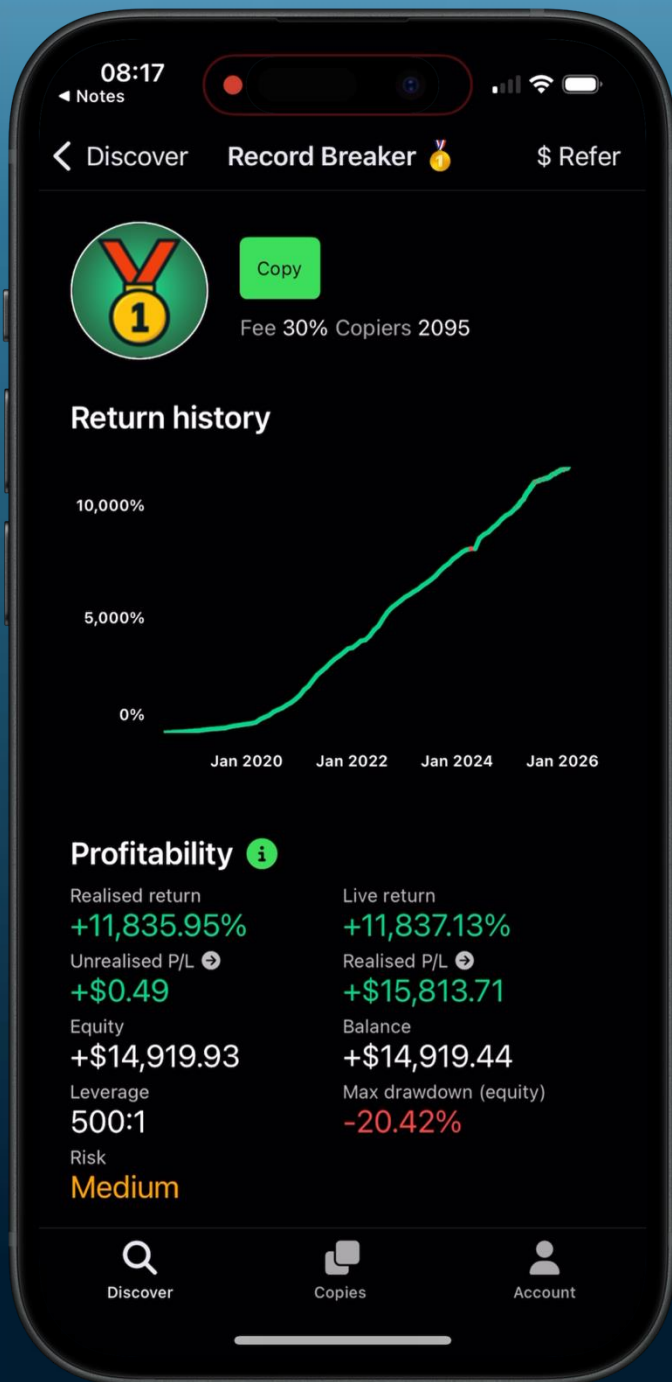

Click "Agree and Create Link"

Copy and paste the referral link or share directly via social media.

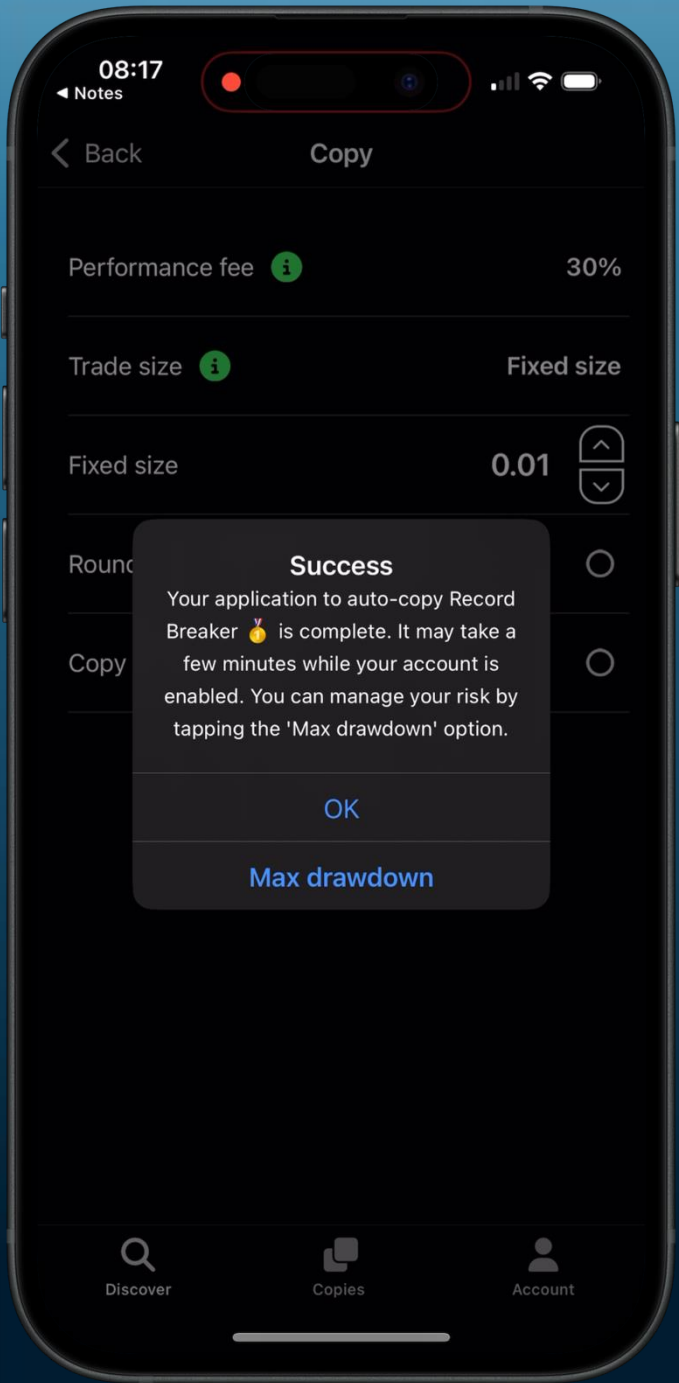

Potential Copier clicks on the link

The Copier will then be directed to the App. If they are already logged in the app will open the specific strategy in question.

If they are not logged in or do not have the app downloaded. Once they create and login and enter the app they will automatically be redirected to the strategy that they were referred to

Once the user copies said signal, 10% of any performance fees that the Strategy receives will be shared with the referrer that generated and shared the referral link.
